THE HAYZLETT GROUP

MASTERMIND SERIES

You have been specially nominated to join our exclusive MasterMind Series. This means we recognize you as an elite leader in your field, and would like to invite you to join your peers in a very select group of masters of the mind, to drive personal and professional breakthroughs.

The Hayzlett Group MasterMind Series is a collective intelligence of exceptional thought leaders to collaborate, cooperate and create extraordinary outcomes for each other. This group will be a formal mastermind alliance, creating a strategic advantage for your business and professional growth.

By participating, you will join a group at a meeting of the minds where we will discuss the issues facing your business today and tomorrow. You will be inspired by what is possible, reminding you of what you are capable of and how you can act on it now. This community will include leaders just like yourself, where collectively we will be able to achieve things we couldn't do on our own; a group of peers who are very unique and ambitious, producing results that other groups cannot.

As we put together this small group of A-listers, I want to determine if you want me to save a spot for you. This small group is by invitation-only and as stated earlier, very limited.

I see this group openly sharing their richest business and life insights and experiences, perspectives and unique paradigms. Bottom line? I see an environment where the level of elevated understanding and accomplishment that's generated helps galvanize, mobilize and realize enormous performance potential.

This kit contains the introductory materials that will position, promote and prepare you to be a better leader. Enclosed is an outline of the benefits and programs, your membership entitlements, sample agenda, a pledge page to underline our mutual conditions of satisfaction, and finally, the program options.

We have a great team building these programs to ensure you have all the answers you need. Reach out to us to find out more or to start processing your membership to secure your position in this elite group.

The Hayzlett Group MasterMind Series is a collection of groups spanning Thought Leaders, Business, Marketing, Technology, Start-ups, and Print.

The group will meet up to three times over the next year, two days each time. This will allow us to multiply our own power in the market-exponentially-by:

- Hosting regular meetings to discuss business concepts
- Brainstorming on new ideas for recreating the marketplace
- Crowdsourcing with the other leaders on problem solving
- Exploring personal tools and techniques that help us to be better leaders

These elite meetings are a way for us to tap into each other's insights and share success with like-minded individuals who "get it" through "behind the curtain" private sessions of tips, insights and real, in-the-field marketing campaigns & business processes. I know this will be immensely helpful. For me, and those in the mastermind group, we will build the kind of support needed NOW in our businesses.

Our members will all be at differing stages of their lives and careers, but we don't differ in our level of commitment; we have the same level of willingness to the new – breaking out of the old – we know that we cannot look to the past for the answers.

These mastermind sessions will provide mutual support, differing perspectives, resources and accountability --- attributes needed by any real leader who is trying to stay ahead of those trying to get to your level. It's critical for you and I to make sure we are seen to be above the crowd and to be just that: leaders.

If you choose to accept this elite invitation, I promise you we will be able to:

- Receive encouragement and support from other members
- Operate in a safe and trusted environment to learn, discuss and share
- Learn of state-of-the-art business techniques
- Develop new business ideas, marketing concepts and growth initiatives
- Problem solve through issues before they arise
- Networking leading to more business and profits

I have participated in these in the past and found them to be the single biggest benefit to my business: in growth, bottom line and eliminating the hassles of running my own business.
